

Questionnaire for Eudaimonic Well-Being

This questionnaire was developed by researchers and contains a series of statements that refer to how you may feel things have been going in your life.

Instructions

- Read each statement and decide the extent to which you agree or disagree with it.
- Try to respond to each statement according to your own feelings about how things are actually going, rather than how you might wish them to be.
- Please rate your level of agreement with each statement using a scale from 0 to 4, where 0 = Strongly Disagree and 4 = Strongly Agree.
- Ignore the "Adjusted" column on the right until it is time to score.

Scoring Instructions

- For numbers 3, 7, 11, 12, 16, 19, and 20 notice the blank white box in the “Adjusted” column.
- Starting with statement number 3, subtract that statement’s score from 4 (i.e., the top rating, not question number 4) and write that new score in the corresponding blank box. Repeat for the remaining statements. For example:
 - If your original score was 3, then $4-3=1$ and you’ll write 1 in that box.
 - If your original score was 0, then $4-0=4$ and you’ll write 4 in that box.
- Now cross out your original score for each of those statements. You’ve just performed “reverse coding” as it is known in the research world.
- Finally, find your total score by adding up the non-crossed-out scores from each column. You’ll get a number that is 84 or less.

Reflection Prompts

What, if anything, jumps out at you regarding any specific statement or this exercise overall?

What do you observe about the statements where you quickly and easily answered either 0 or 4?

What do you observe about the statements where you deliberated a bit or scored 1-3?

What is your takeaway from trying this exercise and what if anything will you do with that insight?
